

Road Closure

Contractors will begin construction at the intersection of HWY 380 and N. 2nd Street soon. The North side of this intersection will be closed for the duration of the project, and **access to the area will be restricted to local traffic only.** Please utilize Yorkshire Drive and 4th Street for access to HWY 380 from the Downtown area. The project will be adding a turn lane and concrete paving for traffic approaching the intersection.

Jack in the Box customers will be able to access the restaurant from the HWY 380 entrance located in front of Auto Zone.

The City of Princeton apologizes for any inconvenience to your normal routine; however, this necessary project will improve the flow of traffic at one of our busiest intersections in town.

Thank you for your cooperation and patience.
