Mayor **Bowers** then announced the second item under the Special Agenda: **(2010-053)** "Discussion and possible action regarding the Landscaping Ordinance and the Zoning Ordinance (referencing masonry requirements)". Mayor **Bowers** advised that this item was on the agenda at his request. The Mayor wishes to ensure all of the ordinances and laws are being followed by the city with regards to landscaping and

masonry requirements. Mr. Lawrence discussed the issues with regards to Auto Zone and the lack of landscape requirements due to the under/above ground utilities. Mr. Lawrence also stated he would like to clean up the language in the Zoning Ordinance regarding "masonry requirements" and define "earth tones". Mayor **Bowers** asked that the Planning & Zoning Commission look at some corridors to be more specific as to the masonry requirements for the city. No action was taken on this item.

No action was required.

Mayor **Bowers** then announced the seventh item under the Special Agenda: **(2010-058)** "Discussion and possible approval of adjustment to the water and wastewater rates and amending ordinances 2009-05-26 and 2009-05-26-01". Mr. Lawrence gave a brief background of the water/wastewater improvements that had been completed or were a work in progress. These improvements were necessary and/or a requirement by Texas Commission on Environmental Quality, TCEQ and the increase in population. Due to incurrence of this debt and the fact that the city had not raised rates in several years, it was necessary to have this increase to meet our financial requirements. Mr. Lawrence stated this increase would become effective April 15, 2010. Mayor and Council acknowledge the need for a rate increase and the fact that the city was still on the low end of rates after the increase from last year. There was some discussion and disappointment expressed by Staff and Council regarding the Water Rate Study done by Bob McLain. The errors in the study were associated with the need for a rate increase also. This increase would not be passed along to Culleoka Water Supply Corporation as any increase by the city, other than what would be passed along by the city from North Texas Water Supply Corporation, must be done around fiscal year and after a water rate study has been performed. Councilmember **Beauchamp made a motion to approve the rate increases.** Councilmember **Wheeler seconded the motion.** The **motion carried unanimously.**

Mayor **Bowers** then announced the eighth item under the Special Agenda: **(2010-059)** "Request for items to be placed on a future agenda and NOT for discussion of these requests". Councilmember **Beauchamp** asked that the Trades Day issue be brought back. Mayor **Bowers** asked contract between the City and Bob McLain be brought back for review and a complete update on 2<sup>nd</sup> Street. Councilmember **Wheeler** asked for an update and follow-up with the drainage issues discussed by Ms. Jones at 412 Jefferson Street. Councilmember **Beauchamp** asked that item **2010-058** be **reopened**. Councilmember **Wheeler** **seconded the motion**. The **motion carried unanimously**.

Mayor **Bowers** re-opened Item 2010-058: Councilmember Beauchamp wanted to advise Council and citizens that Staff and Council did their homework and due diligence to try and find any other alternatives to raising rates but there were none. Councilmember Wheeler commented on the fact that if there was any way they could come back with the money they, Council, would lower rates. No action required on the re-opening of this item.

Mayor **Bowers** then announced the first item under the Report Agenda: City Administrator.

Mr. Lawrence updated Council on the following items: 2010 Spring Onion Festival, April 24, 2010, US 380 Streetscape Enhancement Project, Police Officer/Citizen ration (report being put together by Chief Barnett and would be brought back at a later date), NTMWD activities/plans (would like to have a Representative from NTMWD come and discuss), City Hall renovations/parking lot (Fire Marshall Borg working on plans and cost estimates).
