Re: (COVID)-19

In regard to today's Stay at Home order issued by Judge Hill, as many of the surrounding counties have put stricter restrictions in place, I would have liked to have seen our county more closely follow that precedent. I fully support the protection of our economic health, but the physical health, safety and well-being of the public must be our first priority.

As it relates to city vs. county jurisdiction, now is not the time to debate whose order trumps whose but rather a time for everyone to pull together for the overall benefit and safety of the public. As for Princeton, we will continue to follow the Governor's and County's restrictions and will closely monitor these on a daily basis for updates and changes. I urge everyone in our community to stay home to the extent it is at all possible and closely monitor their physical health.

Mayor, John-Mark Caldwell
